

Maui Coast

Marie & Gene

Maui Coast

Photos from Marie & Gene's trip to Maui during October of 2001. This was our Triple-Three Anniversary: three years, three months, and three days since we wed. This particular set of photos is of the north shore of West Maui (that part of Maui formed by the Pu'ukunui volcano). Here, the rock is much older and very eroded, forming steep slopes along the rainy nothern shores.....
